

The bill for the relief of Fitz-John Porter will come up in the Senate on Thursday.

The Secretary of War and Gen. Sherman think that soldiers should receive \$16 per month. The present pay is \$15.

The Chinese of recent date urge the restriction of Chinese immigration to that country in very emphatic terms.

Hon. A. E. Fay, of Tombstone, formerly of the Doa Cabezas Gold Mine, is a candidate for the position of Chief Clerk of the Assembly.

In the report of the Tariff Commission is adopted for a revision, it will save about \$100,000,000 annually to the people of the United States.

It is said that the hotel expenses of the Tariff Commission at Long Branch was \$6,000, and the amount of whisky drunk in order to determine that no revision of the tariff would be necessary foots up \$3,000.

GEORGE FRANCIS TRAXER has written a poem on Ben Butler. What sensational estheticism it must contain when written by the great sensational mountebank of the age on the great sensational glory-grabber of all.

The postal department has more than paid expenses, the excess of receipts over expenditures being about one and a half millions for the last fiscal year. This is attributable to the suppression of the Star Route swindle, which the Government is so vigorously prosecuting. It saves about four millions annually.

Romero attempted to force himself upon the Republicans of his District by every means available. He spent \$70,000 during the recent election, but was defeated. The Republican party has purified itself of bossism and corruption at the expense of temporary defeat. It gives one confidence in the American Government to see public leaders moved by thought and judgment upon the political chess-board.

We fail to recall any more nefarious law than that of the general government concerning the sale of tobacco. In Virginia, Missouri and Kentucky farmers are frequently imprisoned for thoughtlessly selling to a neighbor tobacco which they have raised as they raise wheat or potatoes. They are simple farmers and cannot understand why they should sell their tobacco to manufacturers only, while they may sell their corn to the best bidder.

Let the counties of Arizona beware of bonded indebtedness. It is a millstone that hangs upon many counties and townships in the state. Casa County, Missouri, has two county officials, exercising the functions of Supervisors, who lie in jail month after month for refusing to levy a tax for payment of an excessive issue of bonds. The county judges that issued the bonds were promptly lynched, but to no effect. It is easy to issue bonds; it is difficult to pay them.

Our City Council has jurisdiction over sidewalks and they should see that they are kept in a proper condition at the crossing of ditches, etc., on the main streets. A person is liable at some of these places to have a leg broken or other serious bodily injury, and the town would be held liable for the same. Also the sidewalks should be kept free from obstructions such as might inflict injury on citizens passing in the darkness, as for instance, a plow handle to run against, or wheelbarrow to fall over. Occasionally these things are to be found occupying the sidewalk, and in localities are habitually kept there.

THE day seems to have passed in the United States when the grave covers every defect and blot on every errer. The poor, silent, helpless bones are no longer safe and sacred in their eternal sleep. Garfield had scarcely been laid away when the teeth of calumny and cold, cowardly hatred were snapped at and tore with remorseless hatred the decaying flesh of the dead hero. And to-day the brave De Long is subject to the same usage after all his toil and suffering and starvation and death. It is easy to say what should have been done or what ought to have been done by him in the terrible emergencies that were upon him, by those who for months contemplated the situation around well laden boards and warm fires.

It is invariably the case in any great disaster. There are those who, safe from the excitements and terrible dangers of the occasion, set themselves to fault-finding and useless, inhuman criticism. A debasing low born jealousy and self-conceit is us-

ually at the bottom of the business. The world is full of human brutes who would defend the character of a dead parent, did they think that by so doing they could make themselves notorious, and win its senseless morbid applause. What good can possibly come by investigation if the dead De Long should be found guilty of all that is charged to him? Will what he really accomplished be of any less value or what he did not accomplish any more a warning to those who may desire to attempt it? Will it make his dead bones rest the more easily or unsanely in their frozen tomb or bring to life the gallant fellows who perished with him in the common disaster? Will it ease the grief of the friends dead to know that public sentiment is turned against his management and be made responsible for their death? The whole matter of investigation is a shame, a disgrace to the nation and if Congress does its duty it will give such a rebuke to the originators as will shut their calumnious mouths and stamp them as shrouds unfit for recognition in a civilized country.

NEWSPAPER men sometimes grow weary in their work and regard their efforts as of but little avail in bringing to the notice of the world the events, business and conditions of affairs that surround them, but once in a great while a little word of encouragement comes and they lay aside the weariness that comes of hard work with no immediately perceptible results and bend themselves once more to their task. Within the past day or two we have had the pleasure of receiving a private letter from which we take the liberty to make an excerpt of words of hopeful cheer. The writer, who, by the way, knows what he is talking about, says: "If you could know the eagerness with which the HERALD is sought here you would be astonished and convinced that a great future is destined to dawn upon the quiet city of Phoenix, and for much of which that people will owe to the efforts of its newspaper men. It is to the energy of the press, today, that every ambitious man has to look for information with regard to the resources which are destined to outreach our most sanguine expectations. Even now may be heard the shriek of the whistle from machinery along the valley whose products are attracting men from almost every State in the Union. Let them come, for there is room enough and resources enough to satisfy the wants of the people for ages to come. The money is within your reach. Every hill teems with silver and gold enough to pay the national debt." \* \* \* \* We have no remarks to make. Arizonans know of these truths already. It is the out-side world we would talk to of these things.

THE City of Phoenix has a very peculiar charter, as construed by the Council. It has been claimed, and we believe decided in court, that our town authorities have no power in case of breach of the peace, according to the charter. We fail to read the charter in that light, for though the charter does not definitely mention breach of the peace, it uses a term that certainly includes and was intended to include breach of the peace. In this connection the charter reads as follows: "The Council shall have power to prevent, suppress or punish any riot, affray, disorderly noise, or disturbance, in any street or public or private place in the city." If a breach of the peace is not a disturbance we must confess that we do not know what a disturbance is. If, however, it has been decided that our Council has no jurisdiction in a breach of the peace, though they have over riots and affrays, the charter should be amended with regard to that matter at the coming legislature. The charter should also be so amended as to give our town authorities power to rid the town of vagrancy, which power it seems they do not think they can exercise, but have left it to the Sheriff of the County to attend to.

THE postoffice money order business of the United States, last fiscal year, was \$120,000,000. This is a happy appendix to our postal system and is receiving favor with foreign governments. For some time it has been the custom of thrifty people, where a bank account was inconvenient or objectionable, to take out money orders payable to themselves. Money is very secure this way, and there is no inconvenience, we believe, where the deposits do not lie longer than one year. Postmaster Howe thinks that the post office need not be a substitute for the savings bank, nor its rival, but its feeder; a place where small deposits with slow accretions may slowly grow into larger ones, then to be transferred to savings banks on long or terms and with larger earnings.

Mr. M. J. Wilcox, of Tombstone, it is thought, will not be a candidate for the next House.

## TELEGRAPHIC.

**Copper from Long Island Mine.** WILCOX, Dec. 8.—The dispatch of the 6th contained an error; that was not the first shipment from the Long Island mine. There have been numerous carloads shipped to Ansonia, Connecticut, and not Swansea.

**The Silver King.** SAN FRANCISCO, Dec. 8.—The Silver King has declared a dividend of twenty-five cents per share.

**Apaches Massacring the People.** ALBUQUERQUE, N. M., Dec. 8.—A special from Chihuahua gives further news of the massacre in Casa Grande. The Apaches, numbering five hundred, descended upon the little town and began an indiscriminate massacre, killing seventy-five victims. "The girls and women were carried off by the savages. Stock and other property were taken, the houses burned, and the bodies stripped of their clothing and jewelry. The murdered persons were among the most prominent families were among the victims. Troops have been dispatched to the scene, but the Indians have a long start.

**The Subtle Lands.** WASHINGTON, Dec. 8.—The House committee on public lands has favorably considered the bill to prevent the unlawful occupation of public lands on the Pacific coast and instructed the subcommittee in charge of the bill to prepare it so as to increase the stringency of its provisions.

**Twenty Graves Unearthed.** PHILADELPHIA, Dec. 8.—An indignation meeting of colored people was held this afternoon, over the recent grave robbery. A trustee of the Lebanon cemetery, named Barton, came near being lynched. Twenty graves were opened to day, and from about half of them the bodies had been stolen.

**Late Telegrams.** The eldest son of the late King of Burmah has escaped from Benares. It is believed he is en route for upper Burmah to raise the rebellion.

A snow storm of unusual severity is raging in Scotland, and railroad connections are interrupted.

Col. Slayback's widow began suit in St. Louis, for \$5,000 damages against Colonel Cockrell for shooting her husband.

The British ship Fiona has been lost at sea with all on board.

An invention revolutionizing the envelope and stamp business has been adopted by the government, and will be put into practical use by the middle of January. It is nothing less than a letter sheet, envelope, and stamp combined, which can be closed together with a single "click." The public will be saved the price of envelope and paper, and the contrivance is large enough for an ordinary epistle, has stamp attached, and will cost three cents. There will also be issued two-cent and one-cent classes. Mr. Ehrlich, of St. Louis, is the inventor.

The remains of Dr. L. Earhart, of Allegheny City, were lately cremated in LaMoine's furnace at Washington, Pa. After religious services, the body was wrapped in a sheet saturated with alum water, and placed in the retort. With two hours incineration was complete. This is the fifteenth cremation in this furnace, mostly female.

**Oregon Tunnel Accident.** SAN FRANCISCO, Dec. 8.—A Portland, Ore., dispatch says: "An explosion today in tunnel No. 1, of the O. & C. R. R. extension, twenty miles from Riddle, killed four Chinamen, dangerously wounded four others and blew a number out of the tunnel. After a blast had been fired, the Chinamen began drilling again, and struck a charge of giant powder which had not exploded. The head was blown off of one and the legs of another were torn from his body."

**A New River and Harbor Bill.** WASHINGTON, Dec. 8.—The Western and Southern members of Congress are anxious to pass a River and Harbor bill, notwithstanding the failure of the Secretary of War to furnish estimates. It is proposed to compel the Secretary to furnish estimates by calling upon him through a resolution, to transmit estimates for particular objects of improvements in which the constituents of these gentlemen are interested.

**Report of the T. R. Commission.** WASHINGTON, Dec. 8.—Talks with Republican representatives today elicited many expressions of approval of the report of the Tariff Commission and strengthened the impression that their recommendations will be likely to receive the support of most Republicans. Democrats express themselves as favoring the recommendations in general.

**Nicaragua Canal Bill.** WASHINGTON, Dec. 9.—The House Committee on Foreign Affairs has instructed Mr. Kasson, who has charge of the Nicaragua Canal bill to urge upon the House its consideration at an early day.

The Postoffice Committee of the House today agreed to a favorable report on the bill introduced last session to reduce letter postage to two cents after January 1st, 1924.

**Horrible Graveyard.** HANAUSSBURG, Pa., Dec. 9.—In the free colored cemetery in the suburbs are at least four layers of dead in an inclosure. The dead were only partially buried, many were uncoffined and the dogs have been feasting on the remains for many years, and portions of the bodies have been dragged to the neighboring farm houses.

**Beware of the Widows.** INDIANAPOLIS, Dec. 8.—Elizabeth Williams, a widow, has caused the arrest of William E. English, son of the Democratic statesman, for seduction on the stage at his opera house. She was subsequently induced to withdraw the suit. He gave bail to answer December 16th.

**Lynched in Louisiana.** BASTROP, La., Dec. 9.—Wednesday night the jail doors were broken down by a body of men and Tom Robinson and Bill Cephas taken out and hanged. Public opinion is in sympathy with the lynchers. Last Saturday a negro named Webster

Andrews endeavored to kill a white man named McDowell, three miles from Bastrop. The negro was captured, and is reported lynched.

**L. O. Out of Prison.** New York, Dec. 9.—Joe Coburn, the pugilist, was yesterday discharged from the Sing Sing prison, having been pardoned.

**Sixty-Seven Degrees Below Zero.** MINNEAPOLIS, Dec. 8.—A polar wave swept over Manitoba, Dakota and Minnesota yesterday. The thermometer was 67 degrees below zero at Winnipeg, Manitoba, this morning, and 37 degrees below zero at Bismark, Dakota, and 23 degrees below here.

**Probable Great Marine Disaster.** ST. JOHNS, N. F., Dec. 8.—Capt Race reports a terrific storm from the southward. Marine disasters on a large scale have probably occurred, as wreckage has been drifting on the south coast all day.

**Arrival of Royalty.** SAN FRANCISCO, Dec. 11.—H. B. M.'s steamer Conus arrived yesterday from Victoria, having on board the Marquis of Lorne, Princess Louise and suite. Salutes were fired from the forts about the harbor in honor of the arrival of the distinguished visitors.

**Killed While Boarding a Train.** SAN FRANCISCO, Dec. 11.—Henry Freeman, a native of Germany, aged 51 years was run over today by a train of cars on Geary street extension, and was mangled so horrible that he died in a few minutes. Freeman was attempting to board the train at the time of the accident.

**Congressional Matters.** WASHINGTON, Dec. 11.—New complications are arising in the matter of the case between Manning and Chalmers. Word comes from the Governor of Mississippi that he will consider the refusal of a certificate to Manning as nullifying the election, and will order a new election and disregard any contest that may be pending in Congress.

Senator Saunders is going to call the bill to admit Dakota as a State Wednesday, and Senator Seawell will call up on Thursday the bill for the relief of Fitz-John Porter.

**Drowned in Mooshead Lake.** BANGOR, Me., Dec. 11.—Dr. Davis, P. C. Knight and Chas. M. Survey and three Frenchmen are supposed drowned in Mooshead Lake. Dr. Davis was being conveyed to see a patient at the time of the supposed disaster.

**A Commercial Treaty.** CITY OF MEXICO, Dec. 11.—The Minister of Foreign Affairs says the report that commissioners have been appointed to negotiate a commercial treaty with the United States is incorrect. Romero, who sailed for the United States today, carries full instructions on the subject, and shortly a commissioner will be appointed to join him in Washington, where negotiations will be conducted.

## TERRITORIAL TWIGS.

Leopold Zeir, Tucson, is dead.

The Mack Morris and Pioneer shipped 10,000 worth of bullion last week.

The Jesse Benton mines are jubilant over a rich strike in the Desert. Tucson has Pinaflore; discounts double dollars eleven cents; wood at fifty cents a burr-fall; twelve hundred people at the bull-fight on Sunday.

Joseph Collingwood died at Florence on the 10th.

Robt. Grigsby is again engineer of the Tiger mine.

Attorney General Brewster recommends in his report to Congress the building of a penitentiary in Arizona or New Mexico.

The Enterprise says that one assaying \$18,000 has been found near that place.

Arizona gets \$20,000 of the Indian appropriation that passed on Thursday.

Reavis will be heard in Tucson on next Friday and Saturday.

One Los Angeles firm furnishes \$35,000 worth of produce per month to Arizonans.

Adam Weir, who is charged with the murder of Pete Clark at Flagstaff last Friday is in the Yavapai jail.

Picacho Station will have a warehouse and tank. The Gunsight company will build a road to that place.

Prescott has a live Marquis on a visit.

Mr. Wallace, an old resident of Prescott, is dead.

Geo. A. Treadwell thinks the Copper Basin the largest copper deposit in the world.

The South Pioneer mill is running and the other mill is going up rapidly.

The County Treasurer's bond in Pinal Co. is placed at \$50,000.

The Hastings mill, Pinal county, will start up again next week, after a short delay in improving the method of catching the gold.

William Rose, a saloon keeper at Hastings, three miles from Pinal, was killed by Jules Crevean last Friday. Crevean is still at large.

The papers say that the census-taker has found more people in Arizona who can neither read nor write than in any other section of the United States. Thus is Yavapai shorn of her glory.

The through passenger traffic between San Francisco and the East has fallen off fully 50 per cent recently on the Central Pacific Railroad. Travelers apprehensive of a repetition of the terrible snows on the mountains of last winter, and the delayed trains, are beginning to go by the Southern route through Arizona and New Mexico, where they have nothing to fear but the blazing sun, the dusty desert and the hostile Indians.

A correspondent of the Miner over the signature of Thurman calls attention to the following sales of mines recently in that county: The

Belle, \$100,000; Red Rover, \$200,000; Holmes Mine, \$350,000; Ruffner Co. Mine, \$100,000; Hidden Treasure, \$300,000; Bureka, \$40,000; Blue Dick, \$18,000.

The following named gentlemen were elected last Tuesday evening to fill the chairs of Cochise Lodge, No. 5, I. O. O. F., for the ensuing term: E. C. Line, N. G.; M. E. Shafer, V. G.; U. S. Bate-man, R. S.; E. Nordgren, P. S.; J. Lenoir, T.

Prescott complains of tramps.

C. R. Mariell wants to be City Assessor of Prescott.

The Miner makes the hearts of the girls leap by saying that next year is Leap Year. "Men are deceivers ever."

About 900 tons of hay were recently destroyed by fire at Fort Apache.

The Methodist Episcopal Mission of New York has appropriated \$5,000 for missions in Arizona.

The California Comply Co. is amusing Globe.

Globe gives a ball and festival this evening for the erection of a hospital.

The Silver Belt says the limbs of the sycamore on which Hawley and Grimes were hanging stretched out yearningly for some sneak thieves in that vicinity.

V. D. Price, formerly of Globe, now of Silver City, N. M., is champion bicyclist, and holds twenty-two medals and numerous prizes.

Prescott will have a telephone system.

California is rounding up Arizona cattle for beef.

Jack Dunn, for many years chief of scouts for the Government, has become disgusted with Gen. Crook's present dealing with the Apache, has thrown up his commission, and predicts a general uprising, unless changes are made.

Work on the Globe and Casa Grande road, via Pioneer is progressing rapidly.

Old Dominion shipped 314 bars of copper last week, weighing 78,710 pounds. Total shipments to date, 1,858,130 pounds.

It is now three years and a half since the mines in Tombstone commenced to produce bullion, since when their record has been something that this community may justly feel proud of. From the time when the first stamp dropped up to January 1, 1892, the output was \$7,359,917, out of which dividends were paid to the amount of \$3,135,000. Of the above amount Contention produced \$2,703,144.39, the Tombstone Mill and Mining Company \$3,704,939.63, Grand Central \$1,059,875.30, and Vixonia \$320,716.98. Contention paid \$1,375,000 in dividends, Tombstone \$1,100,000, Grand Cen. \$600,000 and Vixonia \$60,000. From Jan. 1 to July 1st the production of the district was \$2,356,335.08. The dividends were approximately \$865,300, dividends as follows: Contention, \$375,000; Grand Central, \$300,000; Tombstone, \$150,000, and Vixonia \$40,000. The last half of the year has been more prosperous than the first half, and will not fall much, if any, below \$3,000,000, of which amount Contention will produce one-half, or one-half. This will make a total output of \$12,716,152, with dividends of \$4,875,000. It will be seen that the dividends have amounted to about 25 per cent of the output of the entire district. It is questionable if any other district ever showed so large a percentage of dividends to its output as has Tombstone.—Republian.

**Sentinel.**—Late news from Alvarado district continue to be encouraging. With every foot of depth attained the ledge are widening. The ore continues to average well. There is a rumor of the discovery of an ancient and rich mine, worked years ago by the Fathers in charge of the Mission, which stood near where the Laguna stage stand now is. Next week we will give a full description of the strike and of the history of the mine, if the rumor proves true. The brother of Yuma Charlie, Captain Joe, a son of Pascual, Chi of the Yuma tribe, passed over to the golden shore on Wednesday morning. Joe traveled with Cole's circus for some time, visiting Australia and other places of interest. This style of life did not agree with him, and he contracted consumption, from which disease he died. Captain Joe was an intelligent and industrious fellow, and his funeral was a sorrowful day for the Yuma Indians, who participated in the obsequies of the deceased chieftain. All of his horses were killed, and his relatives have painted their faces in stove-polish, or black paint, the usual badge of mourning among the Colorado River Indians.

The Old Dominion Copper Company of Globe has two belt-conveyors in operation, which will melt 100 tons of bullion per day.

The Buffalo smelter and the Long Island smelter, each of thirty tons capacity, are also working steadily, as is also the Pico quartz mill, which shipped its first five bars of silver bullion yesterday. The South Pioneer mill, now being built, will be put to work as soon as finished. Big copper silvers are being made almost daily. The town is full of strangers, and is rapidly brightening up. It is estimated that more freight enters Globe than any two towns in the Territory. A toll road is being opened between Globe City and Pioneer camp, and will be completed about the middle of January.

The road from Globe to Wilcox is lined with teams going to the district being laden with coal, those returning with copper.—Silver Belt.

A gentleman recently returned from the line states that it cost him \$32 duty to get \$80 worth of provisions through the custom house at Nogales. The rate on canned goods is nearly 100 per cent on their original cost. For instance, three cans of the articles in question are purchased in Tucson for one dollar, and to get them into Mexico requires an

additional payment of 75 cents. The present duty on flour is \$4.77 per weight of one hundred pounds.—Citizen.

The telegraph line between Lordsburg and Clifton is up and will be ready for business in a few days.

A Walnut Grove *arctura* turns out \$375 worth of bullion from 3,100 pounds of ore.

Tombstone is to have a billiard tournament.

Two American prospectors were murdered eight miles from the custom house at San Pedro, on the 3rd inst. Their names were Alexander Stiles and John Morro, both well known in Tombstone.

Tombstone Fire Department is making grand preparations for its coming ball.

Yavapai says the Miner will sit down on any effort to divide Cochise County.

Secretary Van Arman and C. W. Beach have purchased the Stillwell mining property on Sterling Creek.

Tucson still keeps up the war on vags. Eight were put to work on the streets yesterday.

We are pained to learn through the columns of the Sentinel of the death of the infant son of our friend Capt. G. M. Thurlow, of Yuma.

The property of the Consolidated Arizona will be sold in this city tomorrow on a mortgage foreclosure. The property is located in the Arivaca district, and is said to be valuable.—Silver Belt.

Fifteen deserters are reported from Ft. Lowell, near Tucson, within two weeks; average one a day. If every Government priest turn them out as rapidly, the bill to come up in Congress for the increase of the army will be highly proper.

Mr. Butler, of the Internal Revenue Department, with the assistance of Deputy Marshal Evans, is making things exceedingly lively just now for the violators of the revenue laws. Parties who have been in the habit of overlooking the provisions of the United States code in reference to their business, would do well to call a halt before they get into the clutches of the law.—Democrat.

Private Wm. Harding, troop M Sixth Cavalry, has orders to proceed to Ft. Lowell, and report to the commanding officer thereof for duty as hospital steward of the 3rd class, relieving Private Frederick Fleming, Company B, First Infantry, who will report for duty with his company at Fort Apache.

Upon the recommendation of his troop and post commanders, so much of the unexecuted portion of the sentence, promulgated in Department General Court Martial Orders No. 10, current series, as relates to confinement, in the case of Private Charles H. (W.) Povelet, Troop M, Third Cavalry, is remitted, and he will be released from confinement.

**The Gila Monster.**

Much has been written about the curious lizard found in Arizona, New Mexico and Old Mexico, and generally called the Gila monster, Spanish by Arizona. Its scientific name is *Heloderma horridum*. Prof. A. S. Rehn, Philadelphia, the great American naturalist, has made a complete investigation into the character, habits, etc., of the animal, and says it is not poisonous. Professor Cooper, best authority on such matters, and Sir John Lubbock, probably the best authority on such matters, is of a different opinion.

Last summer Prof. Treatwell, of the Vulture mine, caught one of the animals and kept it in his house. He cared for it as a pet, and forwarded to Sir John Lubbock, Mr. S. sent the animal over to Sir John, with air holes, and a covered cage.

The Arizona pet was received by this high dignitary, who named the Gila monster, and Mr. S. sent the animal over to Sir John, with air holes, and a covered cage.

Mr. S. sent the animal over to Sir John, with air holes, and a covered cage.

The Arizona pet was received by this high dignitary, who named the Gila monster, and Mr. S. sent the animal over to Sir John, with air holes, and a covered cage.

Mr. S. sent the animal over to Sir John, with air holes, and a covered cage.

Indiana casts 90,000 more votes than Missouri.

The German reichstag has refused to permit the French language to be used in the provincial committee of Alsace and Lorraine.

A thousand buckets of cider extinguished a fire near Rochester, New York.

Arkansas Masons have decided to sell St. John's college and build a Masonic temple at Little Rock. Grand Master Logan H. Brown officiated at the laying of the Little Rock University, on the 30th ult.

A Chinaman named Hec Ah Duck was hanged at San Rafael, Cal., on the 8th.

Hon. John Ireland, the new governor of Texas, once carried horses for \$8 per month. Thus does the American idea grow dear to the heart of America's.

Gov. Cleveland of New York, is called a Bean filler. Thus does the baked bean step to the front.

Soap and candle manufacturers in Tucson are required to pay from \$100 to \$1000 per month for water, while sugar refineries are to pay from \$300 to \$500 per month. A church for the baptistry pays \$30 to \$15 per month and for other purposes \$5 to \$15 per month. A private residence pays from \$350 for a house of three rooms to \$4 for a house of six rooms, and \$1 for each additional room. A beer hall runs from \$10 to \$50 per month; a cow \$1, and a horse for private stable not less than five. At these rates it is not improbable that our city will soon become the great wash.

**Deservedly Popular.** Unless it had great merit Parker's Ginger Tonic could not be so popular. Its sale has spread remarkably everywhere, because invalids find it gives them new life and vigor when other medicines fail entirely.—Ohio Farmer. dlm
